"Swizznet has been an outstanding business alliance. Swizznet has proven distinction by their friendly, prompt customer services and their excellent hosting solution. This is one service you cannot do without!"

"Swizznet has revolutionized the way we do business. It has allowed us to improve our work efficiency and provide superior customer service. Swizznet has provided us the ability to assist our client from anywhere, anytime."

Getting Started

Setup Time

We can have your server setup and ready for testing in one business day. We include free setup support and training. The initial setup time per computer to install the Citrix receiver is approximately 10-15 minutes.

Internet Connection Requirements

Users are required to have a minimum internet speed of 10 MG down and 3 MG up and we recommend that users ensure they have a good quality internet connection that receives at least a B score from pingtest.net. You can test your speed at speedtest.net.

We are happy to provide a demo account upon request so you can test your internet connection and performance from all your various locations and devices in advance of placing your order.

Billing Setup

We are dedicated to earning your business every month, all services are month-to-month with no long term contracts. Billing is on a recurring monthly basis on the first day of each month to your preferred credit or debit card. Hosting and server costs will be pro-rated for users added mid-month. All third-party license fees are not pro-rated.

A non-refundable setup fee will be charged upon receipt of order and commencement of work.

Questions?

To learn more about integrating Swizznet cloud hosting solutions for Sage software into your construction or contracting business, please contact **CFO on the go** today.

About Infoman

Sage is known worldwide as a great line of business software. It's even greater when implemented correctly for your organization's unique needs – by Infoman. Infoman, Inc. is a Sage Solution Provider, Development Partner, and Authorized Training Partner. We have been involved with Sage for over 20 years and are the Pacific Northwest's Sage experts in solution design, customization, training and ongoing support. For the life of your business — from start-up through years of successful growth — we are always here for you.

Since 1986, INFOMAN has completed hundreds of implementation projects, combining software knowledge with business acumen. All of our on-staff consultants have extensive backgrounds in the real business world, using automation to achieve bottom-line results. Our client base is diverse, including manufacturing, distribution, service, retail and nonprofit organizations, and we pride ourselves on maintaining client relationships that withstand the test of time.
